

# ARBOUR

PRODUCT FACT SHEET

## ARBOUR

DESIGN BY ANDREAS ENGESVIK & DANIEL RYBAKKEN, 2020

Designed by Norwegian designers Andreas Engesvik and Daniel Rybakken, the Arbour series embodies the concept that design should follow construction. Assembled from independently produced components, Arbour was developed to create a compact, comfortable and durable sofa. The solid wooden frame clearly defines the sofa's space, creating a contrast that amplifies the soft, organic seats inside the architectural exterior. With its logical construction and uncluttered design language, Arbour fuses its distinctly Scandinavian aesthetics with high comfort and great durability. The Arbour family comprises a two- and three-seater sofa, and the more compact Arbour Club Sofa and Armchair, all available in selected EU-Ecolabelled upholstery options.

### HIGHLIGHTS

- The Arbour family is available as a two- and three-seater sofa and a Club Sofa and Armchair.
- Arbour is a compact and durable sofa with a sustainable profile.
- Available in selected EU-Ecolabelled upholstery options.
- It is built to last, using separate components that can easily be replaced.
- The cushions are made with recycled filling and removeable covers.
- The cushions are secured to the seat with a Loxx button.
- Available in a variety of textiles and frame colours and finishes.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.

## SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
